## DR2\_036\_01 Acceptances by age

UCAS

**Statistic:** Number of Acceptances

**Variables:** Age (Not banded), Cycle Year

**Coverage:** All

### Definitions

#### Age (Not banded)

Derived from date of birth declared by the applicant, age is aligned with the cut off points for school/college cohorts within the different administrations of the UK. For England and Wales ages are defined on the 31 August, for Northern Ireland on the 1 July and for Scotland on the 28 February the following year. Defining ages in this way matches the assignment of children to school cohorts. For applicants outside of the UK the cohort cut off for England and Wales has been used. Values of 17 and under are displayed as '17 and under', values of 65 and over are displayed as '65 and over' and values between 18 and 64 are displayed unbanded. Please note: if the derived age is outside of the range 11-100 then it is set to 18 by default.

#### Cycle Year

The cycle in which the application was processed.

#### Number of Acceptances

Acceptance is defined as an applicant who has been placed for entry into higher education.
