

## Appendix 1: Summary of quantitative responses

### Introduction

This annex presents the quantitative data collected via the online consultation response form. All tables show data presented by grouped respondent types and tables include non-responses to each question. Appendix 2 summarises the qualitative data collected via the online survey, through individual written responses and in consultation workshops conducted.

### Respondent demographics

Respondents to the online consultation response form were able to indicate which respondent type they primarily fell in to. For the purposes of analysis, some of these categories have been combined as shown in the table below.

#### Grouped Respondent Types

Original Respondent Type	Grouped Respondent Type
HE provider staff with admissions responsibility	HE provider
HE provider Vice Chancellor	
HE provider staff with responsibility for management reporting	
School or FE college	SCA
Adviser	
Learner	Learner
Examination or awarding organisation	Exam/AO/SSC
Sector Skills Council	
Government, regulatory or funding body	GRF
Other (please specify)	Other
Parent	
Employer	

All subsequent tables in this appendix (and categories referred to in Appendix 2) use these grouped respondent types and present the quantitative data for the 304 respondents to the online consultation.

### Recommendation 1: Qualification Information Profiles

**Recommendation 1:** The Qualifications Information Review has proposed that UCAS generates Qualification Information Profiles (QIPs) for UK-regulated level 3 qualifications, relevant Scottish level 6 and 7 qualifications, advanced level apprenticeships, Access to HE courses and key international qualifications (as identified by HE providers) in order to meet the HE admission information needs.

**To what extent do you agree, in principle, with the recommendation to develop Qualification Information Profiles and an associated database?**

**Recommendation 2: A move towards grade-based entry requirements**

**Recommendation 2:** *The Qualifications Information Review recommends that HE providers consider the gradual withdrawal of the use of the UCAS Tariff for setting entry requirements and for offer-making, coupled with the promotion of the greater use of qualifications and grades for setting entry requirements and for making admissions offers and decisions. This would need to be accompanied by an extensive communication programme to support applicants and advisers. UCAS would commit to maintaining the existing Tariff for an agreed period of time, but would not evaluate new qualifications for inclusion after an agreed deadline.*

**To what extent do you agree, in principle, with the recommendation for the gradual withdrawal of UCAS Tariff points for setting entry requirements and for offer-making, coupled with the promotion of grade-based entry requirements and offer-making?**
