

ADMISSIBLE EVIDENCE

UCAS

ACTIVITY SHEET

Looking at the examples of evidence, can you identify any you already have in the evidence bank to help highlight your **personal experiences, skills or knowledge**? List the name of a book you've read, a podcast you've listened to, TV show you've watched or a blogger you follow.

Are there any examples not listed here you can think of?

Now it's time to think about your **digital footprint**, to look for evidence.

Look back at your online history (YouTube, social accounts, browser history)

From what you have **viewed, watched, read, or listened to** are there any that link to a **subject or career** area you might be thinking about for your future?

1. How many link directly?
2. How many link indirectly?
3. How many are because you've been researching for a piece of work you're studying?
4. Is there anything new, interesting or surprising you've learnt from your browsing?
